To Whom It May Concern

This is to certify that **Mr. Osama Ayaz**, bearing CNIC number **17201-8054291-5**, has successfully completed an 8-week **Artificial Intelligence and Machine Learning** internship with growing startup **Murabbi, Pvt Ltd** in collaboration with **Hamsan Tech, Pvt Ltd** from **June 24, 2024, to August 23, 2024**, at NSTP, Sector H-12, Islamabad.

During the course of this internship, he demonstrated strong analytical skills and an eagerness to learn as he delved into various machine learning algorithms. Throughout the internship, he successfully completed:

1. Machine Learning Training and Implementation: The student was introduced to and implemented a range of machine learning techniques, applying them to solve complex problems.
2. Professional Workshop: As part of the professional development, the student participated in a comprehensive workshop on Power BI, gaining valuable skills in data analysis and visualization.
3. Capstone Project: The student worked on a real-world healthcare problem, focusing on the detection of skin cancer using image analysis. This project involved researching, implementing machine learning/ deep learning models, and testing the individual's approach for accuracy and effectiveness.

He showed commendable dedication, professionalism, and an eagerness to learn throughout the internship. His contributions were valuable, and his work ethic was highly appreciated by the whole team.

We wish him all the best in his future endeavors.
